## LANGUAGES

- English (Fluent)
- Amharic(Native)
- Spanish (Beginner)

# HAMMERE SHIMELSE

## PROFILE

I am a Software Engineering student at AASTU with a strong interest in software development, web technologies, UI/UX, and emerging digital solutions. I enjoy building practical, user-centered applications and using technology to solve real-world problems. Through my experience as an intern at Zigzag Space Architectural Firm and my background as an ALX Graphic Design graduate, I have developed a combination of programming, problem-solving, and visual design skills that helps me approach technology from both a technical and creative perspective.

## PROJECTS

### Restaurant Website

Built a responsive frontend restaurant website using HTML and CSS, featuring a home page, menu, gallery, and contact section.

### Digital PC Management System

Developed a team-based system using C++ and MySQL to digitalize the tracking, organization, and management of PC information and usage.

### Digitalized Cafeteria System

Developed a cafeteria management system using C++ and MySQL to organize cafeteria data, manage food orders, and improve service efficiency.

### Ewnet Pay – Payment Verification System

Worked on a digital payment verification project designed to verify and confirm payment transactions, helping make the payment validation process more organized and reliable.

### Green Homes, Green Schools, Green Communities – NYAS Junior Academy

Collaborated with an international STEAM team through the New York Academy of Sciences Junior Academy to develop solutions for the Green Homes, Green Schools, Green Communities challenge.

## WORK EXPERIENCE

**Alebel Desta Consulting Architects and Engineers - Zigzag Space**

- As architectural intern, I have observed and assisted in conceptual design. I am gaining hand-on experience in a professional studio, where I am currently developing my skill in architectural visualization and use of digital design tool.
